

REQUIREMENTS AND APPLICATION PROCEDURES FOR ADMISSION TO THE BTEC BIOMANUFACTURING GRADUATE PROGRAM (BIOM)

Admission Requirements:

1. Transcripts from an accredited undergraduate degree program in engineering, life science, or physical science (including undergraduate/graduate GPA). A GPA of at least 3.0 is preferred.
2. Three letters of recommendation.
3. A statement of career goals.
4. A resume/CV.

Applications are accepted on a rolling basis for both spring and fall semester start dates. Complete the steps below to apply:

1. Go to the NC State University Graduate School application entry portal (<https://applygrad.ncsu.edu/apply/>).
2. Click on 'Create an account' and follow the prompts. Be sure to include your present email address.
3. Log in to the 'Applicant Information' screen and provide the following:
 - a) Personal Information
 - b) Residency and English proficiency. If you are an NC resident, you will have to eventually complete the online residency application before the admissions application will be processed.
 - c) Application and test information. The application should be for "Admission and Financial Aid."
 - d) A scanned copy of your most recent college transcript. This is an unofficial copy. After you have been admitted to the program, you will be required to have an official transcript sent directly from the undergraduate college/university that granted your degree.
 - e) Three letters of recommendation.
 - f) Your resume/curriculum vitae (CV).
 - g) A one-page statement of your professional/career goals.
4. Submit the completed application and pay the application fee online. Completed applications will be forwarded to Danny Monroe, BTEC Graduate Programs Coordinator, and to the BTEC Graduate Admissions Committee for consideration. You can monitor the status of your application on the Graduate School web site.
5. Please direct any questions about these instructions, the application process, or the program to Danny Monroe (dsmonroe@ncsu.edu).
